

***South Coast Conservation Program
Species At Risk Conservation Series 2007
“Towards Solutions that Work”***

What is necessary for making species at risk conservation a reality in your community?

The SCCP Species at Risk Conservation Series is designed to provide local governments, environmental professionals, private land owners and non-government interests a venue to share tools and learning outcomes for increasing conservation and protection of species and ecosystems at risk in the Lower Mainland.

Workshop #1 – North Fraser/Northshore: Species at Risk Conservation in the Urban Landscape. January 16th 2007. Burnaby, BC. Keynote: Rick Kool, Royal Roads University School of Environment and Sustainability.

Workshop #2 – South Fraser/Fraser Estuary: Species at Risk Conservation in the Urban/Rural Interface. February 26th, 2007. Surrey BC. Keynote: Tom Lancaster, Smart Growth BC

Workshop #3 – The Fraser Valley: Species at Risk Conservation from the Uplands to the Floodplain. March 15th 2007. Chilliwack, BC. Keynote: Geoff Scudder, Professor Emeritus University of British Columbia.

Who should attend: If you deal with species and ecosystems at risk, land use and growth management decisions, are involved with development and private land interests that affect species at risk then these sessions will be of value. To find out more about each session and to register go to: <http://www.shim.bc.ca/workshops/workshop.html>

South Coast Conservation Program (established in 2005) is a multi-partner, landscape-level conservation program for the Lower Mainland region. The primary objective of this program is to coordinate and facilitate the maintenance and recovery of species and ecosystems at risk on the South Coast of B.C. For further information about the SCCP go to: <http://www.sccp.ca/>

The SCCP gratefully acknowledges the following for their sponsorship of this series: The Government of Canada Habitat Stewardship Program for Species at Risk. Le Programme d'intendance de l'habitat pour les espèces en péril du gouvernement du Canada, The Land Conservancy, Fraser Valley Conservancy, Greater Vancouver Biodiversity Conservation Strategy Partnership, BC Ministry of Environment, City of Surrey and the Community Mapping Network.
